Certification of Consistency with  
the Washington Coastal Zone Management Program

RE: Department of the Army Permit  
Application No. \_\_\_\_\_  
Applicant: Ash Grove Cement Company

Section 307(c) of the Coastal Zone Management Act (CZM) of 1972 as amended by 16 USC 1456(c)(3) requires the applicant for a Federal permit to conduct an activity affecting land or water uses in the Washington coastal zone to provide certification that the activity will comply with the Washington Coastal Zone Management Program.

The proposed activity described in your permit application is within the 15 coastal counties in Washington, and the following certification is required before your application can be processed to Public Notice. Upon receipt of the signed, dated certification, the Public Notice will be issued and will include the certification statement. The Public Notice will be forwarded to Washington Department of Ecology for its concurrence or objection. Please note, the Shoreline Permit determination process, State Environmental Policy Act (SEPA) compliance, Water Quality, and Air Quality review must be completed prior to the Department of Ecology's determination of consistency.

CERTIFICATION STATEMENT

I certify that, to the best of my knowledge and belief, the activity described in the Department of Army Permit Application dated October 7, 1993 complies with the approved Washington Coastal Zone Management Program (CZM), and will be conducted in a manner consistent with that program. I have started the CZM process by applying for my shoreline permit or letter of exemption from City of Seattle (city/county) on September 30, 1993 (date applied).
